PROJECTS

[Aftertruth](#) | Video Game

August 2026

UI/UX Designer & Visual Identity

- Designed the diegetic and non-diegetic UI/UX of a first-person narrative mystery game, embedding the interface into the game world to keep players inside the fiction.
- Defined the visual identity of the project (color palettes, logo and graphic system) and designed the Game Design Document used by the five-person team as its visual and narrative reference.
- Released the beta on itch.io on 26 August 2026: 148 views, 16 downloads and 80 plays, with positive feedback from the Generation guest reviewers.

[The Dream Stalker](#) | Video Game (Game Jam)

July 2026

UI/UX Designer & Unity UI Developer

- Designed and implemented the game UI (HUD, menus and status screens) in Unity, writing its logic in C# with a Singleton-based architecture that made integration into the project straightforward.
- Led the game design documentation (GDD), defined the initial narrative and prepared the itch.io release pitch.

[El Precio de Resistir](#) | Academic Project

August 2025 - November 2025

Concept Art Lead & Narrative Developer

- Led the narrative development of the project and coordinated the Concept Art team, keeping the visual proposal and the story aligned to build a consistent universe.
- Designed and laid out a 164-page production book consolidating the documentation of the project.
